

WEB DEVELOPER (FULL STACK)

JOB OVERVIEW:

AREA15 is looking for a full stack web developer that approaches their work with a craftsman like mindset. As a company that strives to build both aesthetically pleasing and technically seamless solutions, we are looking for someone that notices the small details and is hungry to take on new challenges. This role involves getting deep into the weeds to solve technical problems and creating high level conceptualizations of new technology. At AREA15 there is never a dull day, and this position personifies that.

You will report directly to the Director of Development and will also work closely with the Creative and Marketing departments. AREA15 is a fast growing and moving company, so if you have ideas, know how to bring them to life, and want to work with other talented people, we want to meet you.

REQUIRED SKILLS:

- Experience working in an Agile environment
- Ability to manage multiple ongoing projects
- Strong attention to detail
- 4+ years of development experience in a professional setting
- Demonstrable skills in JavaScript (specifically React), CSS3, and modern PHP
- Experience working with WordPress
- Strong familiarity with Git and GitHub
- Ability to communicate technical concepts to team members from a variety of backgrounds
- Proficient in SQL
- Able to operate effectively with limited supervision
- Have built and integrated a variety of APIs
- Mobile first mindset
- Familiarity with AWS
- Have written custom WordPress modules and/or themes
- Experience with Node.js and/or Python

WEB DEVELOPER (FULL STACK)

QUALIFICATIONS

- Have a background in design
- Understanding of the Blockchain, NFTs, and the Metaverse
- Experience building and maintaining CI/CD pipelines
- Experience working with a ticketing API
- Experience writing and automating Unit, Integration, and Visual tests
- Experience creating GitHub Actions
- Experience working with Figma and/or Sketch

WEB DEVELOPER (FULL STACK)
